

STRATEGIC ECONOMIC PLAN

Technical appendix TOP STRATEGIC COMPANIES

Top Strategic Companies: June 2016

The West Midlands Combined Authority (WMCA) area is home to 132,000 businesses. The following list contains the largest strategic companies in the area by turnover.

The list was produced by conducting an initial search of FAME for active companies with registered offices in the WMCA area and selecting the largest companies by turnover based on the most recent filed accounts for each company. Local intelligence has also been applied to the list to include companies that may not have been included in the initial search but are seen to make a significant contribution to growth in the area.

The report also includes a list of key education and cultural assets.

The information has been compiled from publicly available information and is designed to provide a snapshot of the top strategic companies with no claims or guarantees on completeness of the list.
