Introduction and purpose.....	3
The offer.....	3
Additional qualifications	4

Introduction and purpose

1. As set out in Annex E of the WMCA Adult Education Budget funding rules 2021/2022, Digital skills are as important to employability and participation in society as English and Maths, yet an estimated one in five adults lack basic digital skills. To address this, the Department of Education from 2020, alongside the existing legal entitlements to English and Maths, will introduce an entitlement to fully-funded digital qualifications at level 1

The offer

2. WMCA will support the qualifications as approved in the ESFA approved list. Providers can find the approved qualifications in the [ESFA list of qualifications approved for funding](#). In addition, WMCA will continue to support the below qualifications as a transitional period.
